

DECK E&M SUPERVISOR

USA – Texas – Houston, Full-time

Nationality: United States Citizen or Resident

Employee Status: Contract

Travel: Yes

THE COMPANY

On behalf of notable Offshore client, OSM Maritime is actively seeking Offshore Personnel specifically for Pipe-Lay Vessels.

Submission Guideline: Subject line of email must reference the position you are applying for.

JOB DESCRIPTION:

Tasks and Responsibilities of the Deck E&M Supervisor include (but are not limited to):

- Organize the execution of vessel Back Deck and project equipment maintenance, repairs, upgrades, installations, removals, and modification
- Assist the Offshore Construction Manager in ensuring that the offshore operations are carried out in an organized and controlled manner, conforming to the company QHS&E requirements
- Utilize NS5 computer based preventative maintenance and procurement system to track, remind, and record preventative maintenance on the vessel's back deck equipment and to procure back deck items.
- Regularly communicate with the Vessel Technical Manager to ensure ongoing efficient operations
- Reviewing the manner in which equipment is being operated and reporting any activities which may subject the equipment to damage or create unsafe conditions.
- Ensuring relevant equipment-related matters are brought to the attention of the onshore Vessel Technical Manager, including Company technical documentation requiring to be updated, i.e. Operation and Maintenance Manuals, Drawings, Circuit Diagrams, etc.
- Ensuring relevant equipment records are maintained and electronic copies are kept onboard and passed on to the technician team.
- Monitoring the usage of relevant spares and consumables required to facilitate repair and maintenance activities. Advising Vessel Technical Manager of spares required, in order to maintain stock level.
- Immediately reporting any equipment failure to the OCM, making aware that suspension of operations may be required.
- Advising the OCM of the anticipated duration of repairs required and the operational constraints on continuing activities with faulty equipment.
- Maintaining the Equipment Shift Log to enable an adequate handover to the oncoming Deck Engineer
- Assisting in commissioning, testing and monitoring of appropriate equipment as required
- Ensuring that Equipment Technicians wear the appropriate PPE and safety equipment in performance of their duties
- Ensure that Company Health, Safety, Drugs and Alcohol policies are adhered to at all times.
- Ensure applicable Company and Third Party equipment is operated and maintained in accordance with Company procedures.

- Ensure project equipment operations are performed as directed by the OCM and Vessel Technical Manager.
- Ensure equipment reporting is performed accurately, expediently and efficiently in accordance with Company procedures.

REQUIRED EXPERIENCE AND QUALIFICATIONS:

- Extended knowledge in Marine and Subsea construction operations with at least 10+ years' experience in a similar role working with Electro and Hydraulic systems. Must be familiar with offshore deck machinery.
- High school graduate
- In possession of relevant trade certificate (Electrical/Mechanical/Subsea)
- Fully trained in basic operations of Flexible Lay Systems (7000 ton carousel)
- Training in NOV and Hydra Marine Cranes, as well as SAS Tensioners
- Good interpersonal and communication skills
- Ability to lead teams with strong leadership skills
- Valid Offshore Medical
- BOSIET Training or Equivalent (OPITO approved)
- Fluent both in spoken and written English
- Knowledge of DP Vessel operations
